

Sovereignty itself is, of course, not subject to law, for it is the author and source of law;

but in our system, while sovereign powers are delegated to the agencies of government, sovereignty itself remains with the people, by whom and for whom all government exists and acts.

Yick Wo v. Hopkins, 118 U.S. 356 (1886)

Government is Of the PEOPLE, BY the PEOPLE and FOR the PEOPLE.

The word government means regulation and control. Good government begins within ourselves. If we learn to regulate and control our own thoughts and acts, we shall be fitted to help govern others. The first duty of the citizen is private and consists in learning to govern himself. His next duty is public. It consists (partly) in voting for good laws and good officers, and in sustaining the officers while they execute the laws. The simplest form of civil government is illustrated by the "Town Meeting." This is an assembly of all the voters of a town, to discuss the business of the town, and enact town laws. Such a government is a democracy. **A republican government is one in which laws are made by representatives chosen by those having a right to vote.** A State Legislature, or a City Council, illustrates such a government. The government to which we should give most attention (after the government of ourselves), is that of the community in which we live. And we should learn not only its present form and method of

operation, but the history of its development from the beginning.

Over the past several years, there has been a great and powerful movement by the patriots and others to take back our Unalienable rights, pronouns as UN-A-LIEN-ABLE or said Not-a-lien-able right. This means no one can take these from us as per the bible and our forefathers. To stand up the republic once again and dissolve the US Corporation and rid ourselves of the banking cartels who direct the central banking wars for their profit.

OREGON

A FREE AND INDEPENDENT STATE

"We THE People, claiming our God-given Rights based in Devine principles, intend to return and maintain the government of the states united to the status proclaimed by the Magna Charta, the Declaration of Independence and the Original Organic Constitution dated 1787 and amended 1791. These God-given Rights are for ALL PEOPLE realizing the only limitation which affects a God-given Right is where there is a conflict between the Rights claimed by two or more sovereign people".

The original Constitution was never removed; it has simply been dormant since 1871. It is still intact to this day. This fact was made clear by Supreme Court Justice Marshall Harlan (Downes v. Bidwell, 182, U.S. 244 1901) by giving the following dissenting opinion: "... two national governments exist; one to be maintained under the Constitution, with all its restrictions; the other to be maintained by Congress outside and Independently of that Instrument."

The Restore America Plan reclaimed the De Jure institutions of government of the 50 State Republics in order to restore Common Law that represents the voice of the people and ends Corporate Law that ignores the voice of the people while operating under Maritime/Admiralty /International Law. This occurred when warrants were delivered to all 50 Governors on March 30, 2010.

To fully understand our Constitutional Rights, you need to understand some basic terms. The basic terms are:

De Jure – Existing by right or according to law; original, lawful. Common Law operates under De Jure terms.

De Facto - In practice but not necessarily ordained by law; in fact, in reality. Corporate Law operates under De Facto terms.

Sovereign – A real person. Sovereigns can own property while Citizens/Subjects cannot. According to the original

Constitution, all government comes from the Sovereign Individual. Without the Sovereign Individual, there is no government.

U.S. Citizen/Subject – A corporate fictitious entity that merely represents the real person. It acts as a "strawman." [To call oneself a "sovereign citizen" or "sovereign subject" is an oxymoron, since "sovereign" and "citizen/subject" are mutually exclusive of each other.] When asked if you are a "U.S. Citizen" on corporate legal documents, if you check "yes," you agree to the terms of Corporate Law and unknowingly relinquish your sovereign status and transfer all of your rights to the UNITED STATES CORPORATION since you are now under contract.

Corporation – A non-human, fictitious entity. Corporate fictitious entities are denoted in all caps. This includes the names of Citizens/Subjects. Your fictitious "strawman" entity is addressed in all caps, i.e. JOHN SMITH, rather than John Smith.

Common Law – God's law. Common Law and the system of De Jure Juries apply to sovereigns in disputes. In Common Law, contracts must be entered into knowingly, voluntarily, and intentionally.

Admiralty/Maritime Law/International Law – The King's law. Deals with criminal acts that only apply to international contracts. Under this law, the people are no longer sovereign.

What have our assemblies accomplished?

Is there any other group that can claim anything like this?

One can only teach from experience and we have it!

All we have seen from **other groups** is people getting nowhere or ending up in jail.

As JFK stated, (Inaugural address January 20, 1961) "ask not what your country can do for you – ask what you can do for your country".

What will you do for your Country, for your posterity? Will "We the People" reinhabit their nation?
